

The Kentucky Academy of General Dentistry presents

Making the Case for Guided Surgery & Digital Implant Dentistry

Friday August 14, 2015; 7:45 am-4 pm EST.

The course will award 8 hours of CE credit. It will be held at Nashville Dental, 11003 Bluegrass Pkwy # 530, Louisville, KY
Please RSVP to Maegan Bennett at mbennett@agd.org or 270-401-3928

AGD Members \$199
Non-members \$299

Topics: Guided Surgery, CBCT, IO scanning, restorative and prosthetics, CAD/CAM

Description: Learn how to achieve a more predictable result regarding esthetics, function, and cost on your future implant cases through Guided Surgery. Understand guided surgery basics and the treatment flow from a restorative perspective. Learn about CBCT scanning and Digital Impression taking.

Speakers

Douglas J Frye, CDT, Owns Functional Esthetics Dental Laboratory, a cosmetic focused laboratory in Farmington, MO. Doug was chosen by 3M to study under Makato Yamamoto, one of the best technicians in the world. Doug has lectured on all phases of dental ceramics, one being, implant placement and the effects on crown and bridge. He has lectured on dental ceramics throughout the country. Doug is the developer of the No Cut-Back Technique. He has worked with some of the industry's leading manufacturers in research and development of new products. He and his wife Muffie, also own re-creating nature, a NBC approved course for continuing education.

Kevin J Westrich, Started D3 Solutions with Muffie Frye (digital division of FEDL) 2 years ago. He has helped plan hundreds of guided cases with his clients. He has also spent the last 16 years working for Functional Esthetics Dental Lab and has been lab manager for the past 5 years. The knowledge he has gained from Doug Frye has help propel him into the position he holds today. He has helped move the laboratory towards the digital movement in our industry. He continually researches the newest technologies in our industry, from guided software, IO scanning solutions for dental offices, and 3D printers.
